

**Pet Food Formulation for Commercial Production**  
**IGP Institute/Kansas State University**  
**January 6-10, 2025 - COURSE AGENDA**

| Section | Date   | Time    | Activity   | Instructor                            |
|---------|--------|---------|--|---------------------------------------|
|         | Jan 6  | 0830    | Welcome, Agenda, Introductions   | Pezzali                               |
|         |        | 0900    | Installing Software; Check-in  | Pezzali / C5                          |
|         |        | 0930    | Nutritional recommendations & Ingredients  | Pezzali                               |
|         |        | 1030    | Break  |                                       |
|         |        | 1100    | Nutritional recommendations & Ingredients  | Pezzali                               |
|         |        | 1200    | Break  |                                       |
|         |        | 1300    | Principles of formulation  | Aldrich                               |
|         |        | 1400    | Principles of formulation  | Aldrich                               |
|         |        | 1500    | Principles of formulation  | Aldrich                               |
|         |        | 1530    | Software overview I  | Aldrich/Pezzali                       |
|         |        | 1630    | Adjourn  |                                       |
|         |        | Jan 7   | 0800   | Regulations and labeling requirements |
|         | 0845   |         | Baking overview, Demonstration Video (PFP, Aldrich)                                | Pezzali                               |
|         | 0915   |         | Software overview II & Baked treats ( <i>formulation exercise</i> )                | Pezzali                               |
|         | 1100   |         | Break  |                                       |
|         | 1300   |         | Extrusion Introduction, ingredient functionality, Demonstration Video              | Alavi                                 |
|         | 1400   |         | Extrusion – no meat CAT ( <i>formulation exercise</i> )                            | Pezzali                               |
|         | 1500   |         | Extrusion – no meat DOG - Reverse Engineering ( <i>formulation exercise</i> )      | Pezzali                               |
|         | 1630   |         | Adjourn  |                                       |
|         | Jan 8  | 0800    | Formulas overview and questions  | Pezzali                               |
|         |        | 0830    | Canning Introduction, Ingredient functionality, Demonstration Video (PFP, Aldrich) | Lambrakis                             |
|         |        | 0930    | Canned/Wet Loaf based formula ( <i>formulation exercise</i> )                      | Lambrakis                             |
|         |        | 1030    | Break  |                                       |
|         |        | 1300    | Group picture  |                                       |
|         |        | 1310    | Canned/Wet Chunks & Gravy formula ( <i>formulation exercise</i> )                  | Lambrakis                             |
|         |        | 1400    | Canning overview & new trends  | Lambrakis                             |
|         |        | 1500    | Break  |                                       |
|         |        | 1530    | Raw (frozen/freeze dried) and gently cooked overview (PFP, Aldrich)                | Templeman                             |
|         | 1630   | Adjourn |  |                                       |
|         | Jan 9  | 0800    | Formulas overview and questions  | Lambrakis                             |
|         |        | 0830    | Formulation – raw frozen and gently cooked ( <i>formulation exercise</i> )         | Templeman                             |
|         |        | 0930    | Formulation – raw freeze dried ( <i>formulation exercise</i> )                     | Templeman                             |
|         |        | 1030    | Break  |                                       |
|         |        | 1300    | Formulas overview and questions  | Templeman                             |
|         |        | 1330    | Formulation – Kibble with meat slurry ( <i>formulation exercise</i> )              | Aldrich                               |
|         |        | 1430    | Formulation – Multi-Step formulation ( <i>formulation exercise</i> )               | Aldrich                               |
|         |        | 1530    | Formulation – Multi-Component ( <i>demonstration - formulation exercise</i> )      | Aldrich                               |
|         |        |         | Computing Metabolizable Energy   | Aldrich/ Pezzali                      |
|         | 1630   | Adjourn |  |                                       |
|         | Jan 10 | 0800    | Formulas overview and questions  | Aldrich / Pezzali                     |
|         |        | 0830    | Formulation for Claims   | Gross                                 |
|         |        | 0930    | Formulation for Claims: GI health ( <i>formulation exercise</i> )                  | Gross                                 |
|         |        | 1030    | Break  |                                       |
|         |        | 1100    | Computing Metabolizable Energy and Creating Feeding Guidelines                     | Gross                                 |
|         |        | 1200    | Break  |                                       |
|         |        | 1300    | Formulas overview and questions  | Gross/ Pezzali                        |
|         |        | 1330    | Urinary pH considerations  | Pezzali                               |
|         |        | 1400    | Cat food – urinary pH ( <i>formulation exercise</i> )                              | Pezzali                               |
|         |        | 1530    | Open Q&A / Certificate   | Pezzali                               |
|         | 1630   | Adjourn |  |                                       |
